**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A wind chill during the morning in the cooler northwesterly airstream and fresh or strong winds. Gloves and hats worth carrying for the higher mountain tops. Winds quite gusty around any passing showers.

Forecast for Sunday 09 Oct 2022

Weather: A dry and bright start to the day but cloud soon thickening and rain will spread down from the north by the afternoon. Rain turning quite persistent through the afternoon with some heavier spells at times.

Maximum wind: South or southwesterly 25mph with gusts 45mph, perhaps 50mph on the higher summits like Snowdon.

Chance of cloud-free hill tops above 800m: 95% falling to 40% during the afternoon rain.

Low Cloud and visibility: Summits mostly cloud free in the morning apart from a few patches above 700m, cloud thickening and lowering by late morning with cloud layers forming down to 500m and perhaps patches below that in the west around Snowdon.

Temperature: **Valleys:** Plus 9 rising to 14 Celsius.
At 800m: Plus 5 -7 Celsius
Freezing level: Above all summits.
